FUTURES

Index to Volume 15, 1983

No 1 February 1983
No 2 April 1983
No 3 June 1983
No 4 August 1983
No 5 October 1983
No 6 December 1983

Titles

After Cancun: the magic of the market, Sam Cole, 15.1, 2–12

Applying the biological evolution metaphor to technical innovation, Ugo L. Businaro, 15.6, 463–476

Automobile usage in a future information society, Ove Svidén, 15.6, 478–490

Butler, machines and life (Retrospective), Geoff Simons, 15.4, 309–311

Computers and you (Essay), Denis Loveridge, 15.6, 498–503

Crisis and opportunity—from technological to social change, Michel Godet, 15.4, 251–263

Cross impact refinements (Methodology), J. E. Beasley and R. Johnson, 15.3, 226–228

Drive-by-wire (Dossier), Dan Sharon, 15.6, 491–498

Electronic publishing (Dossier), Martin S. White, 15.3, 222–223

Forecasting for rulers, Yehezkel Dror, 15.4, 246–250

Fugi macroeconomic model and world trade to 1990, Akira Onishi, 15.2, 99–110

Future computers and future decisions (Essay), J. Swithenbank, 15.2, 152–153

Futures research in the Netherlands 1960–1980 (Report), Jozef W. M. van Doorn and Frans A. van Vught, 15.6, 504–516

Global 2000: radar for the ship of state, Ned W. Dearborn, 15.2, 111–125

Handling the realities of business: a perspective of the European Societal Strategies Project, John P. Edwards and David J. Romano, 15.4, 264–271

Has progress a future?, Sir Kenneth Alexander, 15.6, 441–454

High-order corporate crisis management (Methodology), Stephen J. Andriole, 15.1, 79–86

India in the international economy (Perspectives from history), A. J. H. Latham, 15.5, 397–398

Islamic revivalism (Perspectives from history), M. E. Yapp, 15.6, 516–518

Japan as number one? Social problems of the next decades, Jon P. Alston, 15.5, 342–356

Japanese management theories and Japanese criticisms, Magoroh Maruyama, 15.3, 170–180

Japan's fifth generation computer project, Rex Malik, 15.3, 205–210

Kettle interview with Edward Wenk: keeping tabs on technology, 15.1, 87–90

Long-range strategic planning in Japanese R and D, Ichizo Yamauchi, 15.5, 328–341

Luddites (Perspectives from history), R. J. Morris, 15.2, 154–155

Mass-producing intelligence for a rational world, Gerald W. Smith and Jerry D. Debenham, 15.1, 33–46

Mismanagement of evil (Forum), W. Basil McDermott, 15.4, 302–308

Monitoring technical change and employment, Sonia Liff, 15.5, 387–396

Oil: a novel energy source (Perspectives from history), Geoffrey Jones, 15.3, 224–225

On Praxis, or, what became of the future?, J. Christopher Jones, 15.6, 426–429

Paradigms lost? Reflections on the coming organizational revolution, Douglas Pitt and Simon Booth, 15.3, 193–204

Possible consequences of the very large-scale use of unconventional energy sources, N. W. Pirie, 15.1, 73–78

Predicting African military coups, Roger Charlton, 15.4, 281–292

Preparing for the professional futures field, O. W. Markley, 15.1, 47–64

Redefining the issues of risk and public acceptance, Brian Wynne, 15.1, 13–32

Reducing the blunders in forecasting, Michel Godet, 15.3, 181–192

Relating goals to policies in time-series analysis (Methodology), Stuart S. Nagel, 15.4, 293–301

Sector perspective in social development, Jan-Evert Nilsson, 15.2, 126–136

Self-reliance and participation of the poor in the development process in the Third World, Kempe Ronald Hope, 15.6, 455–462

Sociologist as social architect; a new task for macro-sociology, Bart van Steenbergen, 15.5, 376–386

Spatial effects of information technology; some literature, Thomas Mandeville, 15.1, 65–72

Structural change and assimilation of new technologies in the economic and social systems, Carlota Perez, 15.5, 357–375

Third Sector approach to Sweden's future, Lars Ingelstam, 15.2, 137–151

Towards the formalization of 'small is beautiful', Pierre-André Julien and Christian LaFrance, 15.3, 211–221

Work and nonwork, Europe in the 1980s and beyond, Ian Miles, 15.6, 430–440

'World war three'—a historical mirage?, Phillip A. G. Sabin, 15.4, 272–280
